MIKROTIK

RBMAPL-2ND, MAP LITE

Περιγραφή

The mAP lite is our smallest wireless access point. It is barely larger than a matchbox, we even had to use a special Ethernet port to match its slim profile. You can carry it anywhere: use as a travel router to extend that hotel internet to all your devices, or as a client device to improve your laptop signal range, the tiny mAP lite will be always with you. It comes with a built-in magnet, so you can attach it to any ferrous surface, or, if those are not available, a metallic plate with an adhesive back is also included. It can also serve as a simple configuration tool for your servers, if there is no ethernet on your mobile device, plus, it neatly attaches to the rack with its magnet. The mAP lite is a dual chain 802.11 b/g/n device and operates in 2GHz.

Τεχνικά Χαρακτηριστικά προϊόντος*

CPU	QCA9533
CPU nominal frequency	650 MHz
CPU core count	1
Wireless	2.4 GHz 802.11b/g/n, dual-chain
PoE in	Passive and 802.3af/at
Supported input voltage	5 - 60 V
Dimensions	48x49x11mm
License level	4
Operating System	RouterOS
Max Power consumption	3.5 W

*Τα τεχνικά χαρακτηριστικά του προϊόντος μπορεί να αλλάξουν χωρίς προειδοποίηση

Κατηγορία

ΔΙΚΤΥΑΚΑ ΠΡΟΪΟΝΤΑ || ΕΝΕΡΓΟΣ ΕΞΟΠΛΙΣΜΟΣ || ROUTER
