## UBIQUITI UNIFI CLOUD KEY GEN 2 PLUS UBIQUITI

UNIFI CLOUD KEY GEN 2 PLUS

### Περιγραφή

The UniFi Cloud Key Gen2 Plus is an integrated hardware controller and self-contained application server designed to monitor and manage your UniFi network devices and camera surveillance system. It features an eight-core processor with 3 GB RAM, a 1 TB SATA HDD for video storage, and 32 GB eMMC flash storage, and utilizes the latest version of the UniFi Controller with hybrid cloud technology. The UniFi Cloud Key Gen2 Plus is fully capable of configuring and managing dozens of UniFi devices on your network, and offers an ultra-low energy PoE replacement for a dedicated server or computer, with virtually no digital footprint. View up to 20 live camera feeds in a single window. With basic and advanced template options available, choose the live view template that is right for you. Video recordings are stored privately on the Cloud Key Gen2 Plus. With a built-in 1 TB HDD, you can retain hundreds of recording hours without third-party storage or online digital footprints.
