FANVIL IP PHONE X7

FANVIL

FANVIL IP PHONE X7

Περιγραφή

With a modern, clear design, Fanvil X7 is a high-end enterprise IP phone for business users who need immediate access to all of their important information. In addition to a 7-inch capacitive touch screen for up to 127 DSS key entries, the X7 also features 20 SIP lines, HD audio with Opus support, Built-in Bluetooth, Wi-Fi connectivity & more!

Τροφοδοσία: PoE & εξωτ. Τροφοδοσία (ΔΕΝ περιλαμβάνεται το τροφοδοτικό)

7" Capacitive Touch Color Display:

The telephone's 7" color touch display offers convenient access to all key information at your fingertips.

HD audio for speakerphone & handset:

Newly-added support for Opus and a larger audio cavity bring abundant, strong low frequency effect. The speakerphone adopts full net coverage delivering crystal clear, life-like voice communication.

Up to 127 DSS Key Entries:

A total of 127 DSS key entries are available at the large touch display to users over four pages. Each key can be individually configured with speed dial, call forwarding, BLF, group broadcasting function etc.

Rich Extension Function:

X7 offers a variety of device connections including Wi-Fi (via Wi-Fi dongle), built-in Bluetooth, EHS headset, USB connection for charging smartphone or other devices. Two Gigabit ports allows you to connect your desktop computer or laptop on the phone – no need for extra cabling.

Deliver HD Video Call with IP Camera/SIP Video Door Phone Integration:

Equipped with video codec H.264, X7 enables to be integrated with your IP camera or Fanvil SIP video door phone, so that you can have a two-way talk with visitors & unlock the door from your X7 IP phone if you deem them worthy.
