FORTIAP-231F

ΓΕΝΙΚΟΣ ΚΑΤΑΣΚΕΥΑΣΤΗΣ

FORTIAP-231F

Περιγραφή

This enterprise class 802.11ax Wi-Fi 6 indoor AP provides three radios as well as features such as OFDMA and dual 1 Gbps Ethernet ports for PoE diversity. The AP can provide 24/7 scanning across both bands while still maintaining access on both the 2.4 and 5 GHz bands. The integrated BLE radio can be used for beacons and locationing applications.

Cloud & FortiOS-Managed Access Points

FortiAP access points are managed centrally by the integrated WLAN controller of any FortiGate security appliance or can be managed through the free FortiCloud provisioning and management portal. With the integration of the wireless controller functionality into the market leading FortiGate appliance, Fortinet delivers a true Unified Access Layer. This enables you to easily manage wired and wireless security from a Single-pane-of-glass management console and protects your network from the latest security threats.

Unified Management

Unified management console simplifies operations, ensuring consistent and effective policy enforcement and compliance.

Advanced Security Protection

Wireless LAN security done right, from the leader in network security. Integrated Firewall, IPS, Application Control, and Web Filtering protect the wireless LAN from the latest security threats.

Built-in WiFi Security

Protects the network from advanced wireless threats and satisfies PCI DSS compliance.

Indoor Wireless AP - Tri radio (802.11 b/g/n/ax 2x2 MU-MIMO, 802.11 a/n/ac/ax 2x2 MU-MIMO and 1x 802.11 a/b/g/n/ac Wave 2, 1x1), internal antennas, 2x 10/100/1000 RJ45 port, BT/BLE, 1x Type A USB, 1x RS-232 RJ45 Serial Port. Ceiling/wall mount kit included. For power order: 802.3at PoE injector GPI-130 or AC adapter SP-FAP200-PA. Region Code E
