APC

SRT2200XLI 2200VA ON LINE

Περιγραφή

APC Smart-UPS 2200VA LCD 230V with SmartConnect Intelligent and efficient network power protection. High density, double-conversion on-line power protection with scalable runtime. Ideal UPS for servers, point-of-sale, routers, switches, hubs and other network devices.

Cold-start capable

Provides temporary battery power when the utility power is out.

Green mode

Patent-pending operating mode that bypasses unused electrical components in good power conditions to achieve very high operating efficiency without sacrificing any protection.

High online efficiency

Reduces utility costs, generates less heat.

LCD Status Display

Provides key UPS status at a glance. Multiple status indicators with load and battery bar graphs.

Pure sine wave output on battery

Simulates utility power to provide the highest degree of compatibility for active PFC (power factor corrected) servers and sensitive electronics.

SmartConnect

Innovative, easy to use remote monitoring feature that provides automatic notifications, firmware updates, and advanced support services.

Temperature-compensated battery charging

Prolongs battery life by regulating the charge voltage according to battery temperature.
